1. NATURE OF OPERATIONS

CIC Energy Corp. (formerly Coal Investment Corp.) was incorporated on March 10, 2005 under the International Business Companies Act in the Territory of The British Virgin Islands ("BVI") to engage in the acquisition, exploration, development and operation of coal properties in Botswana.

CIC Energy Corp. (the "Company" or "CIC") was established pursuant to the merger of Coal Investment Corp. and Consolidated Ophir Ventures Inc. ("Ophir"), effective March 14, 2006. CIC was incorporated under the International Business Companies Act in the Territory of the BVI and listed on the Toronto Stock Exchange on March 23, 2006. On June 5, 2006, CIC was listed on the Botswana Stock Exchange.

The acquisition of Ophir was accounted for as a reverse takeover transaction that does not constitute a business combination as Ophir does not meet the definition of a business for accounting purposes. The transaction is a capital transaction in substance rather than a business combination for accounting purposes. Under the takeover transaction CIC is treated as the acquirer and Ophir as the acquiree.

The net monetary liability acquired was as follows:

Assets acquired:	
Cash	\$10,938
Liabilities assumed:	
Current liabilities	<u>(\$20,268)</u>
<u>Net monetary liability:</u>	<u>(\$ 9,330)</u>

Upon completion of the consolidation of CIC and Ophir, effective March 14, 2006 (i) the issued and outstanding shares of CIC (38,350,116 shares) and Ophir (1,001,405 shares) were exchanged on a one to one basis for common shares of CIC and (ii) the common share purchase warrants and broker warrants of CIC (5,987,590 warrants) were exchanged on a one to one basis for common share purchase warrants and broker warrants, respectively, of CIC.

Effective December 16, 2005, CIC subscribed for a 51% interest in Meepong Resources (Proprietary) Limited ("MRPL") after completion of the funding of US\$2 million for exploration and development of two prospecting licences. Effective January 3, 2006, the holder of the remaining interest in MRPL exercised its right to sell its interest of 49% therein to CIC in exchange for 5,606,250 common shares of CIC together with a cash consideration of US\$2 million.

The Company is a development stage enterprise as it devotes substantially all of its efforts to establishing a new business and planned principal operations have not yet commenced, which activities are indicative of a developmental stage enterprise.

These consolidated financial statements for the three month periods ended February 28, 2007 and 2006 comprise CIC and its wholly-owned subsidiaries (together, the "Company").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of presentation

The consolidated financial statements are prepared in accordance with Canadian generally accepted accounting principles.

(b) Principles of consolidation

These financial statements consolidate the financial statements of all controlled companies. Inter-company transactions and balances have been eliminated on consolidation.

(c) Translation of foreign currencies

The Company's exploration subsidiaries are accounted for as integrated foreign operations and are translated into Canadian dollars using the temporal method. Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the year-end exchange rates, while non-monetary items are translated at the exchange rate in effect at the transaction date. Income and expense items are translated at the exchange rates in effect on the date of the transaction. Exchange gains and losses resulting from the translation of these amounts are included in the consolidated statements of operations.

(d) Property and equipment

Property and equipment are stated at cost and depreciated on a straight-line basis over five years.

(e) Leasehold improvements

Leasehold improvements are depreciated on a straight-line basis over the shorter of the lease term of 5 years or their estimated useful lives.

(f) Mineral assets

Mineral assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Amortisation is written off on a unit of production basis over the expected life of the mine.

(g) Exploration properties

The Company considers its exploration costs to have the characteristics of plant and equipment. As such, the Company capitalizes all exploration costs that result in the acquisition and retention of resource properties or an interest therein. The amounts shown for exploration properties represents costs to date and do not necessarily reflect present or future values. If the properties are sold, allowed to lapse or are no longer of interest, accumulated costs are written down. Included in exploration properties are amounts related to expenditures incurred during the pre-operating period. Once a project reaches commercial production, the exploration costs are amortised over the estimated useful life of the producing properties.

The recoverability of the carrying values of the properties is dependent on the ability of CIC to obtain the necessary financing and permits to continue exploration, the establishment of economically recoverable reserves, future profitable production and/or proceeds from the disposition thereof.

(h) Income taxes

The Company accounts for deferred income taxes using the asset and liability method. Under the asset and liability method, future tax assets and liabilities are recognised for future tax consequences attributable to differences between the financial statement carrying amounts and the tax bases of existing assets and liabilities.

Future tax assets and liabilities are measured using tax rates enacted or substantially enacted and expected to apply to taxable income in the

years in which those temporary differences are expected to be recovered or settled. The effect on future tax assets and liabilities of a change in tax rates is recognised in income in the year that includes the enactment or substantive enactment date.

A valuation allowance is provided to reduce future tax assets to the amount that is more likely than not to be recovered.

Income Taxation on the profit or loss for the period presented comprises current and deferred taxation.

Current taxation is the expected taxation payable, using taxation rates enacted at the balance sheet date, including any prior year adjustments.

(i) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the consolidated financial statements and the reported amounts of revenues and expenses during the years. Significant items subject to such estimates and assumptions include the carrying amount of property and equipment, exploration properties, valuation allowances of receivables and stock-based compensation. Actual results could differ from those estimates.

(j) Loss per share

Basic loss per share ("EPS") is calculated by dividing net loss by the weighted average number of shares outstanding during the year. Diluted EPS data is calculated using the treasury stock method. In applying the treasury stock method, options with an exercise price greater than the average quoted market price of the common shares are not included in the calculation of diluted earnings per share, as the effect is anti-dilutive.

(k) Cash

Cash includes those short-term money market instruments which, on acquisition, have a remaining term to maturity at acquisition of three months or less.

(l) Impairment of long-lived assets

Long-lived assets, including property and equipment, mining assets and exploration properties, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted cash future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognised by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of disposed group classified as held for sale would be presented separately in the appropriate asset and liability sections of the balance sheet.

(m) Stock-based compensation

The Company has a stock-based compensation plan for agent options and compensation warrants, employees and property acquisition agreements, which is described in note 8. The Company accounts for all stock-based payments to non-employees under the fair value based method and accounts for all stock-based employee awards that call for settlement by the issuance of equity instruments under that method.

Under the fair value based method, compensation cost for equity settled stock options and direct awards of stock is measured at fair value at the grant date, while compensation costs for awards that call for settlement in cash or other assets, or are stock appreciation rights that call for settlement in cash or other assets, or are stock appreciation rights that call for settlement by the issuance of equity instruments, is measured at the ultimate settlement amount. Compensation cost is recognised in earnings on a straight-line basis over the relevant vesting period. The counterpart is recognised in contributed surplus. Upon exercise of a stock option, share capital is recorded at the sum of the proceeds received and the related amount of contributed surplus.

(n) Goodwill

Goodwill (negative goodwill) arises on the acquisition of subsidiaries, associates and joint ventures.

Goodwill represents the excess of the cost of the acquisition over the Company's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the acquiree. When the excess is negative (negative goodwill), it is recognised immediately in profit or loss.

Goodwill is measured at cost less accumulated impairment losses. In respect of equity accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment.

3. CHANGE IN METHODS OF ACCOUNTING

Effective March 1, 2005, the Company changed its method of accounting from International Financial Reporting Standards ("IFRS") to Canadian generally accepted accounting principles ("GAAP"). The comparative financial statements included in these financial statements have been restated following Canadian GAAP. This change in accounting method resulted from the merger with Ophir and the subsequent listing on the Toronto Stock Exchange (see note 1).

Under Canadian securities requirements, the Company is required to provide, for all years presented, a reconciliation setting out the differences between Canadian GAAP and IFRS as applied to the Company's financial statements for each of the Company's annual filings in the years ending November 30, 2006 and 2005. This required disclosure is set out in Note 16.

4. FINANCIAL ASSETS AND LIABILITIES

(i) Fair values

The fair values of the Company's cash, other receivables, prepayments, accounts payable and accrued liabilities approximate their carrying values due to the relatively short-term nature of these amounts.

(ii) Foreign exchange risk

The Company carries out a significant portion of its transactions in currencies other than its reporting currency.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the three months ended February 28, 2007 and 2006

No hedging instruments are used as uncertainty exists as to the exact settlement dates of these transactions. Cash is held in the currency of the expected payment to reduce risks related to short-term fluctuations in foreign currencies.

(iii) Interest rate risk

The Company is not exposed to significant interest rate risk.

(iv) Credit risk

The Company's financial instruments do not represent a concentration of credit risk, as the Company deals with a number of reputable banks. Credit risk related to accounts receivable is not significant.

(i) On July 19, 2005, the company completed a non-brokered private placement financing of 6,825,000 units for gross proceeds of \$8,326,000. Each unit consists of one common share and one half of one warrant. Each warrant entitles the holder to purchase one common share of CIC at a price of \$2.03 (US\$1.75) on or before March 23, 2009.

On July 29, 2005, the company completed a non-brokered private placement financing of 600,000 units for gross proceeds of \$732,000. Each unit consists of one common share and one half of one warrant. Each warrant entitles the holder to purchase one common share of CIC at a price of \$2.03 (US\$1.75) on or before March 23, 2009.

(ii) On February 13, 2006, the company completed a non-brokered private placement

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the three months ended February 28, 2007 and 2006

financing of 2,666,666 units at \$4.29 per unit for gross proceeds of \$11,448,020. Each unit consisted of one common share and one half of one common share purchase warrant. Each whole common share purchase warrant entitled the holder to purchase one common share of CIC at a price of \$6.90 for a period of one year from the listing date of CIC.

(iii) On March 13, 2006, the company completed a private placement financing of 7,652,200 subscription receipts at \$6.90 per subscription receipt for gross proceeds of \$52,800,180. In connection with this financing CIC paid to the Agents a cash commission of 6.0% of the total gross proceeds and issued broker warrants entitling the Agents to acquire up to 459,132 common shares of CIC at \$6.90 per share on or before March 24, 2007.

(iv) Per the shareholders agreement between CIC and Meepong Investments (Pty) Limited, 49% of MPRL would be transferred to CIC in return for 5,606,250 shares of US\$.30 each issued by CIC, together with a cash payment of US\$2,000,000.

(v) On December 20, 2006, CIC agreed to acquire Johannesburg-based Southern African Development Through Electricity (Pty) Ltd. ("SAD-ELEC") via a binding Sale of Business Agreement (the "Agreement").

SAD-ELEC is a leading consultancy group in the Southern African energy sector, with extensive experience in providing energy-related advisory services to utilities, governments, major energy consumers, fuel suppliers and financiers. SAD-ELEC has served as a strategic advisor to CIC since August, 2005, focusing on legal, regulatory and utility issues, power market analysis, commercial arrangements, and transmission integration for the Mmamabula Energy Project ("Mmamabula") into the Botswana and South African power grids.

Pursuant to the Agreement, a wholly-owned subsidiary of CIC agreed to purchase SAD-ELEC's "Core Business", effective January 1, 2007. This includes SAD-ELEC's consulting,

advisory and management business, along with the services of certain senior executives. The senior executives will be managing key aspects of Mmamabula, in particular related to the planned implementation and operations phases. Certain of these executives, plus other SAD-ELEC personnel, will be temporarily seconded to the completion of existing contractual obligations of SAD-ELEC. Commercial terms of the Agreement include a cash payment of R6.5 million (approximately CA\$1.07 million) and the issuance of 130,000 common shares and 100,000 common share purchase warrants of CIC. Each warrant will entitle the holder to purchase one common share of CIC at CA\$11.00 until January 1, 2009.

(vi) On February 8, 2007 CIC announced that it had entered into a bought deal private placement with a syndicate of underwriters led by Westwind Partners Inc. The underwriters purchased, on a bought deal private placement basis, 2,200,000 common shares of the Company at a price of CA\$15.00 per share, for aggregate gross proceeds of approximately CA\$33,000,000. CIC plans to use the net proceeds of this financing for general corporate purposes.

(b) Warrants

(i) Agent options and compensation warrants

Of the outstanding warrants, 39,000 entitle the holder to purchase one common share per warrant at the exercise price of US\$1.00 (CA\$1.109) per share, expire on July 21, 2007 and are exercisable at any time. Warrants of 218,088 entitle the holder to purchase one common share at C\$6.90 until March 24, 2007.

(c) Options

The Company has a rolling ten percent stock option plan in terms of which stock options are issued to directors, officers, employees and key consultants from time to time. Options granted may be exercised during a period not exceeding eight years, subject to earlier termination under various circumstances. The exercise price may not be less than the minimum price stipulated by applicable regulators.

The fair value of the options issued has been determined using the Black-Scholes model using the following assumptions:

Risk-free interest rate	6.00%
Dividend yield	0%
Volatility factor of the expected market price of the Company's shares	126%
Average expected option life (years)	8
Weighted-average grant date fair value of options granted during the year	\$ 0.678

Of the above options, the following options have vested at February 28, 2007:

Issued April 17, 2006.	695,000
Issued July 26, 2006	212,500
Issued December 22, 2006.	126,666

The stock options outstanding at February 28, 2007 expire as follows:

	Price	Number of options
April 17, 2014	\$6.90	2,780,000
July 26, 2014	\$8.00	850,000
November 2, 2014	\$8.61	110,000
December 22, 2014	\$13.15	<u>427,000</u>
Total		<u>4,167,000</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the three months ended February 28, 2007 and 2006

The fair value of options cancelled is included in contributed surplus.

The total stock compensation recognised in the Statement of Operations is \$469,516 for the period ended February 28, 2007.

9. INCOME TAXES

(a) The income tax expense recognised in the statements of deficit is reconciled as follows:

(b) The tax basis of the Company's Botswana and South African assets converted at year-end exchange rates results in a temporary difference, whereby the translated tax base is different than the Company's carrying value for accounting purposes. The tax effect of this temporary difference has not been recognised as a deferred tax asset, as future taxable

income is not certain due to the risks associated with exploration ventures. These losses do not have expiry dates.

Deferred tax assets can be summarised as follows:

	February 28, 2007 (unaudited)	November 30, 2006 (audited)
Deductible temporary differences	\$ 8,094,143	\$ 7,694,479

	<u>\$ —</u>	<u>\$ —</u>

10. RELATED PARTY TRANSACTIONS

Included in the accounts are payments made to companies under the control or significant influence of officers and directors of the Company. These transactions are recorded at the exchange amount, being the amount agreed to by the parties and are in the ordinary course of business. A summary of these transactions follows:

	Three months ended	
	February 28, 2007	February 28, 2006
Administrative services ¹	\$ 80,444	\$ 80,864
Consideration paid to original shareholders of Meepong Resources (Pty) Ltd. ²	\$ —	\$ 4,225,195

1. CIC carries on business outside Canada. CIC purchases administrative, advisory and investor relation services from a company that shares a common director to assist in fulfilling its ongoing obligations as a reporting issuer listed for trading on a stock exchange in Canada. On August 1, 2005, the Company entered into an administrative service agreement (the "Agreement") with Tau Capital Corp. ("Tau"). The Agreement has an initial term of three years, terminating on July 31, 2008, subject to further renewal by the parties to the agreement. The terms
